

VRP-4DLi

Dual stage Vacuum Pump 114 L wireless 18V - 9Ah lithium battery

with manual shut-off valve

The Value TF-VRP 4DLi is a **wireless, dual stage vacuum pump compatible for refrigerants 1234yf and R32.**

Mini and wireless, the TF-VRP 4DLi 2-stage vacuum pump is portable, lightweight and easy to use

Its intelligent motor drives the product to achieve faster vacuum pumping and an upper ultimate vacuum with reduced weight

Equipped with a lithium battery for longer autonomy

Device designed with manual shut-off valve

Easy closure after pumping operation

Compact and light bodywork

High operating reliability

Constant vacuum pumping for 50 minutes

High ultimate vacuum : 15 microns

General Characteristics

Power Supply	18V 9Ah lithium battery
Connections	1/4" SAE & 3/8"
Outlet flow rate	4.0 CFM 114 L/min
Ultimate vacuum	15 microns
Power max.	1/4 HP
Weight	7.5 Kg

Dimensions

Dimensions	300 x 112 x 236 mm

NOUVEAUTÉ
VALUE
NAVTEK

- High Ultimate Vacuum
- Portability : smaller design makes it easy to carry and use
- Security : thermal protector in the motor makes the pump run steadily
- Reliability : forced-feed lubrication system makes it more reliable
